Shadow of the Parthenon
Peter Green

A lively combination of scholarship and unorthodoxy makes this book on ancient history and literature unusually rewarding. The studies cover both history and literature, Greece and Rome. They range from the real nature of Athenian society to poets as diverse as Sappho and Juvenal, and all of them, without laboring any parallels, make the ancient world immediately relevant to our own.

The Last Generation of the Roman Republic
Erich S. Gruen

The fall of the Roman Republic commands an enduring fascination. Usually the last generation of the Republic is depicted in a period of breakdown with Caesarian autocracy rising upon the ruins of a structure which was already destroying itself. This book takes a different approach in that it examines the generation that preceded Caesar's march without the seductive temptations of hindsight. Continuity emerges more forcefully than change, and the author gives a view of Roman society with all its institutions and social classes.
